EXPERIENCE

Frontend Developer at Beproofit

March 2023 - Present

- Developed and implemented complex, reusable components in **Vue.js**, utilizing **Pinia** for robust state management.
- Optimized performance, maintainability, and scalability through refactoring of legacy codebase.
- Collaborated closely with UX/UI designers and backend developers to ensure seamless integration of features.
- Utilized **WebSocket** to dynamically display real-time data and providing up-to-the-minute information.
- Implemented data visualization with **Chart.js**, transforming complex datasets into intuitive visual representations.

Frontend Developer at Fundbox

June 2022 - November 2022

- Creating new features, functionality, and capabilities by taking full ownership from concept to production.
- Developing single page applications leveraging in **Vue.js**, **Vuex**, **CSS(Sass)** and **Django**.
- Enhanced code quality by improving test coverage, using **Jest** for unit testing and **Cypress** for e2e testing.

Fullstack Developer at RightCode Labs

November 2020 - May 2022

- Work as a part of small team - provide an end to end service and develop plenty of websites and applications, both client-side and server-side, using **React**, **TypeScript**, and **Node.js**.
- Implement API services with DB integration using **Node.js Express**.
- Experience working with Backend APIs.
